

Music Play at Home - Video Library

A Sing&Grow video library subscription offers families full access to a library of online session videos, arts & crafts and more! Each session has its own unique theme filled with awesome songs, playful movement activities and activities to try at home. Activities are suitable for children from birth to 5 years.

Connecting Families

The video library can be accessed on any smart device.

Families can complete sessions together even when they are not in the same location providing meaningful, age-appropriate ways to connect.

As sessions are pre-recorded they can be used flexibly to fit around the parent and child's daily routines.

Building Parent's Confidence and Capacity

Parents are provided with resources and inspiration on how they can meaningfully connect with their children through singing, play and discussion.

Online sessions and resources help teach parents the benefits of singing and engaging in play at different developmental stages. These skills can continue to be applied after the family completes their online subscription.

Family Wellbeing

Online sessions and resources help families set up routines for playtime, bedtime, greetings and farewells using music and play. Consistency in routines helps children learn and heightens their sense of security with their parents/ caregivers.
